

Program Goals

Goal 1: Clinical Excellence

- Develop clinically competent physician assistants who can provide high-quality, evidence-based patient care across diverse healthcare settings.

Goal 2: Professional Development

- Foster the development of professional behaviors, ethical decision-making, and lifelong learning skills essential for PA practice.

Goal 3: Interprofessional Collaboration

- Prepare graduates to function effectively as members of interprofessional healthcare teams.

Goal 4: Cultural Competence and Health Equity

- Develop culturally responsive practitioners who can address health disparities and provide equitable care to diverse patient populations.

Goal 5: Research and Scholarship

- Cultivate the ability to critically evaluate medical literature and apply research findings to clinical practice.
